It is with sincere appreciation for her contributions - and genuine disappointment in our own fiscal circumstances - that I confirm the conclusion of Ms. Guaracira Borges Ferreira’s employment with our organization. The decision was driven solely by internal financial mismanagement and in no way reflects her performance, professionalism, or value to our team.

Over the past 21 months, Ms. Ferreira has proven herself to be a gifted, motivated, and dependable professional. Guara is very proficient using ChatGPT and is a highly capable communicator. She consistently takes ownership of tasks, works autonomously, and delivers excellent results on time and within budget.

Ms. Ferreira’s digital, online, and website production skills are outstanding. Our website and online platform showcase her work across multiple content categories, including patient education materials, thirty-four blog posts, articles, a 405-product marketplace, photography, videos, script writing, interviews, and AI-generated creative content. Her ability to use AI tools to produce polished English-language advertising copy is particularly impressive.

We operate in an extremely competitive environment, with seventeen pharmacies - including Rexall and Shoppers Drug Mart - within one kilometre of Yonge and Eglinton. Eighty percent of our active customers live or work within half that distance. Despite these challenges, Ms. Ferreira’s contributions strengthened our brand presence, improved customer engagement, and elevated the professionalism of our digital footprint.

Google Reviews 2.6

A disappointing experience. Staff always rude.

They don't like to help, they turn away.

Horrible customer service and errors in the pharmacy are a hindrance to managing customer medications.
